Bradford GNU/LUG Second birthday discussion

Unifed agreed method of communication

Lack of local business support/awareness

Ways of inducting
newcomers into
the group

New dictator RB

Haven't taken over the world yet

Do we want a plan for world domination or
are we happy as a clique of awesome friends?

People say what they have been
doing in the past month,
what OS they favour and why

Cake is good
more cake

This pen is rubbish

It's cheap, it's regular

Less Postit notes

Truly interesting people
no pretentiousness

100% fab

Lack of collaborative work

Temperature of room

Like the talks, different perspectives

Talks too Web tech,
rather than Linux based

Talks split into talks and demos

More

talks
guests
show and tell
competitions

Regular monthly meeting
plus mid–monthly meeting
for other talks/projects

Are we running out of ideas for talks?

More external speakers

A way to reimburse
external speakers' costs
and invite more

Python day

Hardware
? Arduino day

Free room
